The screenshot shows the Visual Studio IDE with a C# project named 'CC2021 CS3 HW1'. The 'Solution Explorer' on the left shows the project structure with folders 'obj' and 'bin', and files 'Program.cs' and 'Properties\AssemblyInfo.cs'. The 'Code' window displays the source code for 'Program.cs', which includes a 'Main' method that reads a string 's' from the console, splits it into an array, and then iterates through the array to print each character. The 'Output' window at the bottom shows the execution of the program, displaying the input string 'Hello, World!' and the output 'H', 'e', 'l', 'l', 'o', ',', ' ', 'W', 'o', 'r', 'l', 'd', '!', ' '.
